

PAYNTER BAR OPERATING PROCEDURES – 05/10/26

GENERAL:

- Hours of trade will generally be Wednesday 1700–1930, Friday 1700–1900 and Sunday 1700–1900.
- If there is an event on a Wednesday (e.g. Trivia, Bingo or Dinner), trading hours will be adjusted to suit – say 1730–2030. Opening times for other "Special Events" will be agreed on a case-by-case basis.
- Volunteer hours will commence 15 minutes prior to opening and end 15 minutes after the designated closing time.
- Volunteers are asked to wear closed-in, non-slip shoes, name tags and their Green GemLife polo when on duty.
- There will be a designated Duty Manager on for all opening times.
- Any issues or queries from patrons are to be directed to the Duty Manager.

OPENING PROCEDURES:

- Turn the glasswasher on. Ensure the drainage plug is in place.
- Set up the glass scrubber with hot water and detergent.
- LOG ON to the POS registers.
- Unlock all fridges and liquor cupboards. New fridges are locked by a padlock with a piece of conduit in the door track to secure.
- Collect open bottles of red from the bar cupboards and place on the end of the centre fridges on a bar runner.
- Place spirit bottles into the dispenser racks. Open spirit bottles are behind the new locked central spirits cupboard.
- Place open bottles of white wine in the bar stainless steel bin and fill to about $\frac{1}{4}$ with ice from the ice maker in the bar. **DO NOT USE BAGGED ICE.** If, during the shift, you run out of ice there are bags in the kitchen freezer.
- Fill two ice buckets with ice and scoops and ready the cutting boards and knives with lemon and limes.
- Place bar runners on the front and side counters.
- Ensure waste and recycle bins are in place adjacent to the bar door.
- Ensure all price lists and advertising are on display.
- Place table cleaner spray bottles and cloths at the northern end of the bar for patrons to clean their own tables.

OPERATING PROCEDURES:

- Read the order back to the patron before completing the sale.
- Ensure card payment has processed before the patron leaves the bar area.
- **All drinks must be served in a fresh, clean glass – never top up a drink into a customer's used glass.** This risks cross-contamination and may breach Queensland food safety regulations (Food Act 2006 and the Food Standards Code).
- Clean and wash glasses as time permits.
- Wash hands regularly using the facilities just inside the bar door and/or the provided sanitiser.
- When time permits, do regular checks of the tables for glasses that have not been returned to the bar.
- Should additional stock be required during your shift, the Duty Manager will arrange restocking.

- Any stock that is served cold is to be restocked from the cool room first, not the store room. This is how the stock rotation is designed to operate.
- Record any wastage, breakages or any other issues in the notebook in the top drawer.
- **If a patron is served the incorrect drink, or a glass is found to be chipped or damaged, apologise. The Duty Manager is to offer the patron one replacement drink of equivalent value at no charge. Record the incident in the notebook in the top drawer.**

CLOSING PROCEDURES:

- Announce last drinks at least 15 minutes before closing time. Do not serve alcohol after closing time.
- Duty Manager to LOG OFF (but not switch off) the Square registers; they are to be left on. Secure any small units in the bar cupboard.
- Check the tables for glasses etc.
- Dispose of all rubbish into the bins provided.
- Empty bins if needed. Spare bin liners are in the drawer.
- Wipe down all fridges and bar surfaces.
- Disassemble the glass scrubber and leave to dry.
- Empty the glasswasher but leave it on. The Duty Manager will return the next morning to wash any late-returned glasses and tidy the bar areas; once the glasswasher is emptied, they will remove the drainage plug, turn off the power, then push the large wash button.
- All open bottles of wine (red and white) are to be pumped and sealed. Place white wines back in the fridge and red wines in the cupboards behind the bar.
- Spirit bottles to be returned to the spirit cupboard.
- Ensure all fridge and cupboard doors are locked.
- Wash all utensils, cutting boards etc and leave to dry.
- Duty Manager to take and wash dirty tea towels, then return them when done.
